E-CS Configuration Change Request

CCR No. 96-1225	**Logged Date** 10/29/96	**Rev. -** -	**Request Type** CCR CCR

Priority Routine ☐ Urgent ☐ Emergency ☒	**Affected Release**	**Change Class** I I

Title (description) Re-assign Release A SMC Mini DAAC RAID device to DMG LaRC DAAC

Documents Affected	**Source Nos** (RID, NCR, Action Item, GSFC CCR, etc.) **or Tech Reference**

RTM Change ☐   **Start New Baseline** ☐

Problem
Following the change from HP K200s to HP J210s, the Release A Data Management Subsystem does not have a supported RAID device available for the LaRC DAAC.

Proposed Solution
The SMC Mini DAAC RAID device (HP C2439) is an older RAID box that is currently not in use and is compatible with the HP J210s (including older version op sys). Remove this device from the Release A SMC Mini DAAC and re-assign to the Release A Data Management Subsystem at LaRC. Release B does not use the older RAID technology and is therefore not impacted.
